EX-PRESIDENT HARRISON'S NEPHEW
When Worn Out Nothing Helped Him Like PAINE'S CELERY COMPOUND.

To be born a Harrison has been, in this country, as with the Pitt family of Prime Ministers in England, to turn instinctively toward politics and a public life.
Two Presidents of the United States, a Governor of Virginia, who was also a signer of the Declaration of Independence and a member of Congress for several years—all within four generations, father to son, has but one parallel in this country and few abroad.
Mr. John Scott Harrison, Jr., nephew of ex-President Harrison, whose hard, telling campaign work in the Southwest showed the strong family gift, sends the following appreciative estimate of Paine's celery compound as an agent for the body and brain when either are excessively used:
KANSAS CITY, Mo., Jan. 28, 1898.
Wells, Richardson & Co.:
Gentlemen—It gives me pleasure to say that Paine's celery compound has proved of inestimable benefit to me at different times, when the labors incident to my work and the nervous strain following arduous work in campaigns had taxed me physically. With the thousands of other mental workers, who have been benefited by it, I can recommend it as a great restorative and builder.
Yours truly,
JOHN SCOTT HARRISON, JR.
Paine's celery compound is the one means regarded sufficiently effective by conscientious physicians to be relied on in cases of debility arising from whatever cause, and to counteract the strain of unexpected, prolonged work and excitement. It is the only remedy prepared under the eyes of the medical profession, and in strict accordance with the directions of a physician of acknowledged ability.
No ordinary help, no well meaning but unprofessional concoction, sarsaparilla or blood purifier can do what Paine's celery compound is able to accomplish: cure men and women of such serious diseases as kidney troubles, liver complaints and dyspepsia, or permanently drive away—and there's the point that no sufferer should lose sight of—permanently drive out of the system, rheumatism, neuralgia and all skin affections.
Nerves and brain can be worked out. This is the condition of thousands of exhausted nervous systems that have been almost worked to death in school, counting rooms, factories and stores. Shaky nerves, flabby muscles, muddy complexion and the general appearance of weariness and pain tell the story of exhaustion. Persistent headaches go with nervous debility. That terrible throbbing of the heart comes from a wretched condition of the nervous system.
The sure way to get back perfect health of body and brain is to regulate and nourish the nerves by means of Paine's celery compound. It is a searching cure for all diseases that indicate vitiated blood. It builds up the strength and replaces used-up parts by new, vigorous tissues.

KITTY LEE RELEASED.
Her Creditors' Case Was Not Strong Enough to Hold.
Last night about 7 o'clock, Kitty Lee was released from custody, her detention being the result of a warrant sworn out by a local jewelry firm, charging her with attempting to defraud. The firm's bill was between \$600 and \$700, instead of the larger amount previously reported. The hearing was before C. P. Flick, commissioner of the circuit court.
The defendant was represented by Attorneys Howard and H. M. Noyes, and Messrs. F. C. Cox and H. M. Russell, representing the prosecution. The allegations not being considered sufficient, Kitty Lee was acquitted, and she was lightly stepped into the hack that was waiting and was driven off to her home. There are other creditors, besides the jewelry firm, and further effort may be made to locate the property which it is alleged Kitty Lee secreted, or had carried off, but at present she is ahead of the game.
